

Featured Product: Knocked-Down Retracta-Belt®

Reduce storage footprint by: **74%**

We all know that floor space can get tied up quickly, especially when storing unused equipment. This is why our Retracta-Belt® stanchions always have the option to be shipped Knocked-Down. Our shipping box is strong enough to be used as a storage container keeping unused posts protected and out of the way. See how our innovative design and packaging can really save you valuable floor space.

Unique Packaging & Construction

- ▶ **Heavy-gauge cardboard:** allows shipping carton to be used for storage
- ▶ **Unique box:** utilizes space efficiently and protects product
- ▶ **No tools required for assembly:** for fast and easy deployment of posts when needed
- ▶ **Durable steel connection:** allows repeated breakdown and set-up without wearing assembly connection
- ▶ **Innovative base connection:** the only post that remains straight even if it's not fully tightened

Other Storage & Transportation Options

Vertical Post Storage Cart

- ▶ **Easy loading and unloading:** only 16" of lift to load and unload posts
- ▶ **Avoid injury:** caused by other carts that require lifting posts over 3 feet
- ▶ **Maximize space:** staged platforms allow transportation or storage of up to 18 posts in a 2.5' x 5' space
